

Financial Powerhouse

As of 31st Oct. 2024

• Overview

A portfolio consisting of diversified FinServ companies with strong return-generating capabilities.

• Rationale

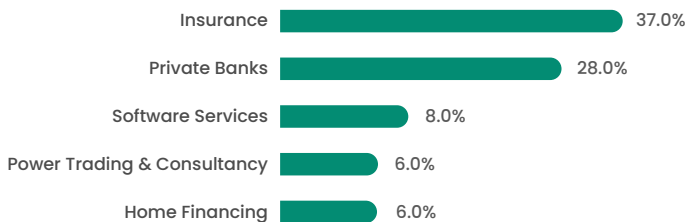

The Financial Powerhouse Portfolio is a diversified collection of stocks centred around the growth of India's financial sector. It includes a mix of banks—ranging from large to mid-sized and small—as well as NBFCs specializing in retail, microfinance, and the housing sector. The portfolio also features insurance companies spanning life, health, and general insurance. Additionally, it includes key financial infrastructure providers, such as a major stock exchange, India's largest depository, a leading RTA, the largest cash and ATM management company, and more.
