# **Wealth Compounder**

As of 31st Oct. 2024

#### **Overview**

Growing wealth by investing in natural earnings compounders that deliver above-average returns.

#### Rationale

With a large and youthful population that shares global consumption aspirations, emerging sectors poised to benefit from these demographic shifts and demand for high-quality products and services will grow significantly faster than traditional industries. The leaders in these sectors, by establishing strong competitive moats, will experience rapid growth and generate greater value for their shareholders.

Min Investment : INR 2,00,000

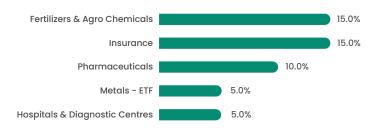

2.5% of Avg. AUM Per Year, Paid Monthly

SIP Option Available after min. investment of INR 2,00,000.
